wifi / mesh hardware choices (two basic options)

2019/08/28

Ignoring price, which type of hardware would yield better coverage in a large 2 story house. (cable into the house is on 2nd floor, but literally, no coverage is needed up there) Using "Orbi AC3000" (RBK53) or Netgear AD7200 & a couple of TP-Link AC2600 extenders. It seems they both offer advantages over the other... Right now we use a WRT54G & an extender and it's simply not working well enough. I borrowed another repeater and the problem is getting signal thru the floor, not so much the walls. Thanks.

signal jammer ANAHEIM
